

# Xda® Venn

A uniquely designed, dual sliding smartphone providing an array of email, internet, text and mobile phone features in a portable and stylish mirror finished case. With video, photo and music functionalities, it is ideal for both work and play.

## Designed for...

Business customers who want fast and easy access to data with the reassurance of key security features for full business protection. The Xda® Venn offers a range of functionalities with fast internet access<sup>1</sup>, real time email<sup>1</sup> and the latest Windows Mobile® 6.1 technology as well as both a full QWERTY keyboard for emails and messaging and a numeric pad for easy dialling.

## A bit more detail...

- Essential IT security features include exception lists, device lock, data deletion, device PIN numbers, over-the-air remote management and enforcement of corporate IT policies
- Microsoft® direct push email capability<sup>1</sup> – allows you to send and receive emails in real-time and synchronise over the air with your desktop, view PowerPoint®, as well as open and amend attachments using mobile versions of Microsoft® Word, and Excel®
- Provides enhanced versions of Microsoft Outlook®, Word and Excel® with the familiar look and feel of your desktop or laptop computer
- Supports the latest Windows Mobile® 6.1 technology offering:
  - Getting started centre – access help from your home screen for common tasks such as making calls, email set-up etc.
  - Exchange server auto-discovery – easy set-up of customised domain email addresses under ‘my personal domain’
  - Fetch mail for POP 3/IMAP – provides automatic downloads of large emails without intervention<sup>1</sup>
  - Page overview – view entire web pages on your screen with the option to select a segment for close-up viewing
  - Threaded text messaging – view SMS texts as an ongoing conversation with contacts displayed for chat-style messaging
- Receive, view, compose and send files in HTML format
- Enables optimum viewing of documents, photos and video clips with a high quality 2.4 inch full colour, high resolution, LCD screen
- Fast internet and email delivery with 3G and WLAN connectivity<sup>2</sup>
- Fast data transfers with HSDPA technology

- Optimum international coverage with Quad-Band GSM functionality – operating on GSM/GPRS/EDGE wireless networks
- Choice of data input method with full QWERTY keyboard for quick and easy data entry on messaging and email or a numeric keypad for simple dialling.

## A few great reasons to have an Xda® Venn...

- Premium, sleek and stylish design, exclusive to O<sub>2</sub>
